

**REMARKS**

Applicant thanks the Examiner and her Supervisor for the interview on September 20, 2007, in which the invention and claim 28 were discussed.

Claims 28-50 are pending in this application. In response to the Examiner's suggestions, applicant has amended claims 28, 29, 36, 37, 48, and 48-50.

The amended claims now refer to processing an order, and now refer to providing a result identifying the portions of the order to be processed by the different mechanisms for processing the order. Moreover, Applicant has amended claim 49, in response to the Examiner's suggestion to use language similar to other claims.

In the previous amendment, applicant mistakenly skipped claim 44 in the numbering of the new claims. As a consequence, claim 44 has been labeled as not entered in this amendment.

In view of the above amendments, applicant believes that the pending application is in condition for allowance.

Applicant believes no fee is due with this response. However, if a fee is due, please charge our Deposit Account No. 08-0219, under Order No. 0101957.00125US2 from which the undersigned is authorized to draw.

Respectfully submitted,

Dated: September 27, 2007
